

## Attachment 2 - Dicamba: State Regulations Summary

Under FIFRA Section 24(c), states may register an additional use of a federally registered pesticide product to meet special local needs. EPA reviews these registrations, and may disapprove the state registration if, among other things, the use is not covered by necessary tolerances or voluntarily canceled subsequent to a notice concerning health or environmental concerns.

The following list represents OPP's current understanding of registered and pending 24c registrations or State-specific regulations that further modify the federal label.

Missouri	For sale and use only by certified applicators; Prior to purchase and/or use certified applicators must have completed Missouri training; Certified applicators must complete Dicamba notice of application form prior to each application (notice to MDA); Applications restricted to between 7:30 am and 5:30 pm; Cutoff dates: June 1, 2018 (southern counties: Dunklin, Pemiscot, New Madrid, Stoddard, Scott, Mississippi, Bulter, Ripley, Bollinger, and Cape Girardeau. June 15, 2018 in all remaining counties
Georgia	24c labels requiring mandatory GA training and spray drift management ("Using Pesticides Wisely")
Alabama	24c labels requiring mandatory AL training and spray drift management.
North Carolina	24c labels requiring NC specific training "Auxin Herbicides – Best Management Practices"; Clarified 2018 training requirement and annually following 2018 before applying; Specified ALL applicators must be trained; Record Keeping clarification (reduced 14-day requirement to 72 hours); Specified sensitive species
Louisiana	24c labels requiring mandatory training
New York	24c labels requiring mandatory training
Tennessee	24c labels requiring applicator to take training provided by Univ Tenn; restrictions on application timing between 7:30 am and 5:30 pm; Hooded sprayers required between July 15 and Oct 1 (specifies types of hood).
Arkansas	State legislation: April 15, 2018 cutoff date
Indiana	State Rule restricting sale and use of dicamba > 6% a.i. as RUP; Certified applicators only; 24c labels requiring certified applicators completed training provided by State/Purdue.
Iowa	2018 24c label directing applicators to complete IDA provided or IDA authorized training
North Dakota	June 30 cutoff date; Prohibit applications when temperatures >85; One hour after sunrise to one hour before sunset; Restrict tractor speeds to 12 mph; Minimum spray volume 15 gpa; Mandate 80-degree spray nozzles
South Dakota	All dicamba products are registered as RUP.
Minnesota	RUP for certified applicators only; Do not apply after June 20, 2018; Do not apply if air temp >85 or forecasted by NWS's nearest station >85.
